

Formation

2011-2014 3 years	Engineering School, a three year course specializing in Food Industry , Oniris, France - Studied of several phenomenon in physics applied to the food processing - Food science and technology - Statistics - Economics, social and management
2009-2011 2 years	Institute of Biology, a two year course specializing in Food Industry , France, Angers (49)

Professional and internship experience

March - august 2014 6 months	Research and technical development , Pasquier, France - Developed a new product - Active participant on a project team aiming to set up a new industrial oven
July - august 2013 2 months	Team manager of production lines , Val Nantais Conditionement, France - Led the production lines, ensure security and quality - Managed twenty 20 workers - Deal with daily hazard
July - august 2012 2 months	Touristic guide , Biotopie Nature Park, Greece , Rethymnon - Took care of animals and plants - Provided touristic tours in English
February 2012 1 month	Quality assistant , Intercosmétiques, France - Performed daily controls in a microbiology laboratory - Studied the air contamination
April – June 2011 3 months	Researcher , Inserm (research institute) with the industrial collaboration of Bonilait proteins , France - Studied the structure and the causes of instable milk powder emulsions - Implemented various protocols of characterization - Used of several techniques: laser diffraction, zetametry, protein quantification, tensiometry

Studies projects

Engineer project 1 years	Improvement of the texture of lemon tartlet in collaboration with a farm the industrial Pasquier - Studied and improved the formulation - Used of several techniques : texturometry, sensorial analysis, Aw, glass transition temperature
Engineer project 1 years	Development of a new ice cream made with goat's milk in collaboration with a farm - Developed a product with a kind of milk not usually used in an ice cream in France - Solved problem across formulation and processing
University project 1 years	Development of an innovative product: a green lipstick perfumed with mint

Tools

Computer software	Pack Microsoft office, XLstat, Visualbasic, statgraphics, as400
Language	French: native language English: fluent Spanish: read, spoken, written

Activities

Sport	Coach of the handball Oniris team (2012-2013), player in handball team
Associative	Member of the student engineering office (2012-2013) Member of the council about student life in Oniris (2011-2012)
Interests	Guitar player, oenology club
Travels	Amsterdam, Marrakesh, Croatia, Budapest, Italy, Prague, Spain, Athens, Crete, London, Berlin, Martinique
