To Whom It May Concern:

I am writing regarding David Streeter, a former colleague of mine.

I first had the opportunity to work with David when he was a Medical Assistant and I was a Staff Nurse at Howard Brown Health Center. This clinic serves a very high volume of patients, many of whom have complex medical and psychosocial problems. In this high pressure setting, David was always a pleasure to work with. His job performance was exemplary, his level of commitment admirable, and he also managed to bring some welcome levity and humor to the workplace. David was always comfortable and confident as a contributing member of the multi-disciplinary team and he provided valued input when developing plans of care.

David is also a natural leader and was always ready to share his knowledge and experience with newer team members. It therefore came as no surprise to me that David went on to teach aspiring Medical Assistants. Once I was promoted to Clinical Operation Manager, I turned to David to help me fill some open Medical Assistant positions. He has since referred three staff members to me. I credit him for using his insight and intelligence in finding students who would be a perfect fit for our organization. I also appreciate his ongoing belief in Howard Brown and his ability to leave a work place and still maintain an excellent relationship with our organization.

In short, I would highly recommend David Streeter for employment. He is a skilled, talented, motivated person who is a pleasure to work with. Please do not hesitate to contact me at 773-572-6977 if you would like to discuss this in more detail.

Faithfully,

Daliah Mehdi
