To: Whom it may concern

I hired David Streeter as Medical Assistant Program Coordinator on October 10, 2005, while I worked as school director at Illinois School of Health Careers. For more than seven months, while under my direction until my departure, he taught classes and managed the content and delivery of our medical assistant program. Other instructors looked to David to troubleshoot and overcome issues that arose on a daily basis. This freed me up to perform other important duties that would not have been finished if David had not taken the initiative. He held students to the highest of standards, which gave them the knowledge and confidence to achieve their goals of gaining employment in the medical field.

David is an intelligent and motivated individual. He is more than capable of managing a group of people and driving results while staying in compliance with state and federal proprietary school rules.

I give David my highest endorsement for a management position at any educational institution.

If you would like additional information about David, you can e-mail me at mstroeh@hotmail.com.

Sincerely,

Mark Stroeh
School Director
