

David GEROLAMI

Chef de projets / Chargé d'affaires chez SAPHYMO

davidgerolami@hotmail.com

4 personnes ont recommandé David

"I am very happy to write this recommendation for David. During 5 years, David has been in charge of several projects, where his polyvalence has been proven. Especially, he has managed one of the main projects of the company I used to work for (Saphymo), which was one of the most complex we never dealt with. During this time in my team, David has acquired a valuable experience in management of technical projects, especially when legal and regulations constraints are tight. Moreover, it has been a pleasure to work with him."

— **Olivier Binet**, *Technical Manager, Saphymo*, encadrait David chez SAPHYMO

"I used to work with David during 5 years at Saphymo. We both managed major projects for the company as we had the same job. David is a professional project leader who always has the customer satisfaction as main objective. He can manage complex projects while taking care of quality, delivery times and costs. Therefore I recommend David for any similar position."

— **Adrien SILVERT**, *Project Engineer, SAPHYMO*, a travaillé directement avec David chez SAPHYMO

"During my time (2008-2011) with Saphymo as CEO, David's responsibility was to manage large projects for top class customers in the field of radiation monitoring systems. Deeply committed to his job, David managed the projects in a perfect way, developing a comprehensive approach of the customer but in the same time, leading openly the project team and keeping on track both the budget and delivery times.. David made a great job in managing such strategic projects. Therefore I strongly recommend David for any similar position. Serge Bonnefoi"

— **Serge Bonnefoi**, *CEO, SAPHYMO*, encadrait indirectement David chez SAPHYMO

"I worked with David in Saphymo as a colleague. He is a very skilled professional in project management for all type of complicated projects in the field of nuclear instrumentation and nuclear measurements dealing with lots of simultaneous projects and complicated customers. It was a great pleasure to work with David and I would recommend his work for any similar position."

— **ivan bertrand**, *Project Manager-Transition management, SAPHYMO*, a travaillé directement avec David chez SAPHYMO
