cargoflo Montreal

Liquid and Solid Bulk **Transload Services**

CN's Montreal Cargoflo is a key liquid and dry bulk transfer facility serving markets in Quebec and eastern Ontario, as well as the northeastern U.S.

Geographic facts

- Greater Montreal is home to 3.5 million consumers. It is Canada's second largest and Quebec's largest urban market.
- CN's Montreal Cargoflo allows you to benefit from the economies and flexibility of long haul rail and short haul trucking to access your marketplace.

Transload Services

- A multi-commodity liquid and dry bulk transfer facility currently handling, **but not limited to**, plastic resin and food-grade liquid commodities
- Product transfer, scaling, sampling, steaming, container loading and unloading, blending for food grade oils and delivery
- Inventory management system
