

Guten Tag!

I am a professional teacher from Bern, Switzerland with over 5 years of foreign language teaching experience.

I graduated from the Teachers College of Bern University, where I received my Bachelor of Arts degree in Education, as well as my teacher certification. I immigrated to the United States in 2011 and received my New Jersey teacher certification shortly thereafter. I am a native German and Swiss German speaker. I am also fluent in Syriac, a dialect of Aramaic. I currently teach German in a public school in New Jersey.

I am a highly effective teacher and can assist you with your German learning needs! I tutor all ages and all levels, from beginner to advanced learners. I can provide you with instruction on reading, speaking, and writing in German, exam preparation, or business interactions. I can also teach you about German or Swiss culture.

I am patient and understanding, but also encouraging as I have high expectations for my students. I use best practices for teaching a foreign language including listening, reading, speaking, and writing activities, educational games, musical rhymes, role-plays, visual aids, and personalized worksheets. I also integrate SMART Technologies into my lessons by using a touch-screen laptop.

I will help you master your learning goals. At the same time, you will be surprised at how fun learning a language can be! Please contact me for my rates and availability. You can also review my resume by visiting tinyurl.com/theresecoban.

Educationally yours,

Therese Coban
